Follow the instructions below for Video capturing :

- Face should be fully visible, 50% of the video frame shall be covered by the face and background should be visible.
- Any video where face is not clearly visible, or at a far distance shall not be accepted.
- The face should have a bright light and there should not be dark shadows covering the face. The video of subscriber wearing any accessories like cap, headgear, eyeglasses, headphones and/or sun glasses shall not be accepted.
- video should be preferably in a plain background and subscriber should have a natural expression.
- In the case of documents, during the capture, document should be preferably held using fingers on the edges without covering the contents of the document
- Alternatively, document can be placed on a flat surface and recorded.
